EXPERIENCE

LabTIC / UDESC, Intern Full Stack Developer

August 2022 - Present, Florianópolis

I currently develop digital products and services from their initial stages to implementation at LABTIC/UDESC.

- Developer for the Web and Mobile system of the Cost of Living Index (ICV) of UDESC/ESAG, a project that has been calculating inflation in Florianópolis for over 50 years. Technologies used: TS, Vue.js, Vuetify and React Native.

In addition to the development experience, I am constantly expanding my horizons in UX/UI and Design System concepts.

Biarich Gifts, Administrative Assistant

February 2020 - February 2022, São José

Responsible for managing the company's ERP system and various files, as well as customer and supplier service and order management.

This experience gave me skills in organization, management and customer service, as well as knowledge in issuing tax documents.

EDUCATION

Universidade do Estado de Santa Catarina, Bachelor in Business Administration

February 2019 - December 2023, Florianópolis

During my graduation in Business Administration, I came across the world of software and technology and immediately shifted in that direction.

COURSES

Santander Bootcamp Full Stack Developer, Santander

May 2022 - August 2022
